## Combi 400 ViP

The Combi 400 ViP offers a total electro therapy solution consisting of a Combi 400, a Vaco 400 and the dedicated Gymna mobile 400.

The Combi 400ViP, helps achieving your 3 therapeutical goals of pain relief, tissue repair and muscle stimulation by applying electrotherapy, ultrasound, combination therapy or laser therapy.

Standard supplied with a Mobile 400, including a modular vacuum unit for the application of electrotherapy using vacuum electrodes. Additional the vacuum can be applied in Combination therapy.

The color touchscreen, for intuitive navigation, guides you to optimal treatment protocols and access to extended clinical information with GTS.
